Mayors Report 6-12-08

EDC/Planning May 27th cancelled

June 3, 2008 Meeting with Villican & Leman, City Planners. We have had this firm from the conception of the City. They have done amazing things for us in the past; things seem a bit stale in more recent years. This maybe their response to prior Administrations and not necessarily what they are capable of. During this meeting we discussed the current philosophy of the City and how it needs to move forward in planning. We assigned some homework to them dealing with the new gas station as a test to see what they can do to better serve the City. Also I have asked if Mr. Tellirico could be assigned to the City as our advisor from the firm. As we receive funds to make a new master plan, which is pivotal to the City moving forward we want to make sure that we are investing in a company that will provide the best service for us.

Mayor Exchange June 5, 2008 visited Carleton, Mi. Valuable networking opportunity, to see how they run their government. Exchanged ideas, plans to exchange equipment, and made future connections.

Mayor Exchange June 6, 2008 Carleton visited Luna Pier. It was an exceptional tour of Consumers, I believe that it help to strengthen the relationship with our neighbors. I found out that the reason Bay City was chosen over Luna Pier for the new plant was lack of water access to bring in coal. Not sure how this will affect us when Consumers decides to build another plant and this one has used up its life. Taking our visitors to the Lighthouse Factory sparked a lot of interest from our business owners. They communicated to me that they want something to support their businesses for the future or they will not be able to continue. Approximately 50 members of the community along with our visitors attended the dinner at the Community building at the end of the evening. I know I formed a positive impression of the Village of Carleton and I believe they formed a good impression of us as well

Coming Up:

- DEQ sight visit, master plan grant July 10, 2008
- Lakeside drain Hearing July 17, 2008 at 6:00pm
- Meeting with Mason Consolidated, concerning the school sight
- Jones & Henry near end of month, concerning the WWTP proposal
